

Abdelrahman Gamal

Junior Frontend Developer | Computer Science & Artificial Intelligence Graduate

📍 Cairo, Egypt ✉ abdo.gamal9700@gmail.com ☎ +0201098201435 🔗 [linkedin.com/in/abdel-rahman97](https://www.linkedin.com/in/abdel-rahman97)

SUMMARY

Highly motivated and collaborate **CS & AI Graduate** with a deep passion for frontend development. Skilled in translating complex designs into responsive web interfaces using **HTML5, CSS3, JavaScript, and TypeScript**, with hands-on experience in **Tailwind and Bootstrap** and attention to detail. A continuous learner currently expanding expertise in **Angular**. Proven ability to apply logical thinking about how to solve technical challenges, seeking a Junior/Internship role to drive impactful user-centric solutions."

PROJECTS

Blood Bank – Graduation Project (Excellent):

Full Stack Developer | ASP.NET Core, Angular, SQL Server

- Built a modern software development donation ecosystem connecting donors with nearby blood banks using Geolocation services
 - Key Feature: Designed and implemented a unique priority algorithm that rewards frequent donors with priority access to rare blood types during emergencies.
 - Developed RESTful APIs using .NET Core and a responsive UI with web applications (Angular, JavaScript) .
 - Facilitated secure user communication and managed complex database relationships for donor history tracking.
-

EDUCATION

Bachelor of Science | Computer Science and Artificial Intelligence - Helwan University

Egypt, Jan 2023
